

LOG GRAB LOG-BITE

The all-round working tool

Very robust grab for pulp wood as well as single logs. Optimal roll-in roll-out properties to guarantee full load in every grab.

- Made entirely of Hardox®
- Induction hardened shafts and special heavy duty alubronze bushings
- 90 mm cylinder bore and 63 mm protected piston rod for high gripping force and fast opening
- Equipped with high torque market leading Indexator rotators
